Art Unit: 3727

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, 12-16 and 18-32, drawn to a subcombination of a container, classified in class 220, subclass 6.
- II. Claims 33-49, drawn to a combination of a container assembly comprising a base, walls and an inner container, classified in class 220, subclass 23.83.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination doesn't require pivotally attached walls as stated in claim 1, walls integrally formed with the peripheral frame portion as stated in claim 14, a base and base member as claimed in claim 18 and walls which collapse inwardly as claimed in claim 24. The subcombination has separate utility such as container for any object other than a container, such as loaves of bread.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Ms. Stephanie Mansfield on July 29, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3727

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Castellano whose telephone number is 703-308-1035. The examiner can normally be reached on M-Th 6:30-5.
